## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

# VKA PROMOTERS' PACKAGE

VKA wishes to thank you for hosting a vintage karting event. Present-day karting started with these types of karts. The history of karting is shown in these karts. The history of karting is also shown in these karts' ability to demonstrate their capabilities and enables present day karting to move forward. **All events, but especially those in September, can help us celebrate the Second Annual International Go Kart Month.**

Visit [www.facebook.com/groups/1107821282970313/](https://www.facebook.com/groups/1107821282970313/).

## 1. General

- Promoters must execute the **Marketing Agreement**.
- Other useful documents are available on the VKA website: [www.VKAkarting.com](http://www.VKAkarting.com)
- Effective January 1, 2020, all class entrants, show judges and participants, and returning vendors must be VKA Members. You will be provided a current list of VKA Members about one week prior to your event.
- All entrants should complete a Registration Form (see Appendix I, p.21 for content suggestions) before they sign the track waiver. A copy of the completed form should be part of the event report, submitted to VKA.
- Have VKA membership forms available at registration. (See [Appendix G](#) or they can be downloaded from the VKA site ([www.VKAkarting.com](http://www.VKAkarting.com)).)
- VKA is asking for a **voluntary advertising contribution** back from your event. You may do a 50/50 Raffle (50% of the proceeds are given to VKA and 50% are given back to ticket holder. **NOTE:** You may have to be licensed/approved in some states in order to hold a raffle) or you can just make a voluntary advertising contribution of \$100.00 to \$200.00 to The *Vintage Karting Association*. If you have fewer than 40 attendees, you don't need to send anything. For 40 to 80 attendees, the recommended amount is \$100.00; Over 80 attendees, \$200.00. In return, VKA promotes your event on the VKA website ([www.VKAkarting.com](http://www.VKAkarting.com)) Vintage Karting Association Facebook Public Group and provides guidelines and offers technical support. **VKA provides Kart Show Awards/Certificates.** Any additional prizes could be given at this time and could boost ticket sales.
- Special awards could include Oldest Driver, Greatest Distance Traveled, and Outstanding Vintage Karter. Be creative.
- Be sure to display the VKA banner provided to you by the *Vintage Karting Association*.
- VKA recognizes two levels of demonstration events: Tier I and Tier II.
  - Tier I events are flagged events with motocross scoring and recognition of at least 1<sup>st</sup> place winners, although 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> are preferred.
  - Tier II events are “non-flagged” events, with no scoring and no awards.
  - Promoters should identify which level of event they are holding when they announce their event.

Promoters should be aware of one of the **major** 2014 VKA membership survey results; **99% want consistency between events!** Before you consider adding a “promoter’s option,” consider the impact it will have on how participants will have to change their equipment for your event. Any changes must be approved by VKA 120 days before the planned event date and should be

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

part of the event flyer. A PDF copy of your event flyer will be posted on the VKA website and should be submitted to [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com) well before the event.

- In order to promote pre-registration, the promoter should consider publishing a “Refund Policy,” so those who **do** pre-register will know the extent to which they will or will not be reimbursed if they don’t show up.
- To avoid any confusion at your event, the Promoter should make it clear that if anyone brings a kart that does not conform to the **VKA Guidelines**, they may be turned away. They should also welcome any potential participant to contact them prior to the event if they have any questions about the equipment they intend to bring. The Promoter should consider reviewing any photographs and **documentation the potential participant presents to justify the “period correctness” of their equipment and how it conforms to the VKA Guidelines before the event.**
- **Be sure to complete the Event Report (Appendix C) and submit all required documents.**
- Although VKA will promote your event, the promoter is welcome to promote their own event, especially in local media (e.g., local newspapers and community service announcements on radio and TV).

VKA will also support the event after-the-fact with an Event Summary in **VKA FirsTurn®** based on input from the Event Promoters. Submissions of text and/or pictures may be included in the **VKA FirsTurn®** (space available) and on the VKA website. Text submissions should be in WORD and submitted to [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com) and pictures should be posted in a file link (preferably on [www.DropBox.com](http://www.DropBox.com)) and access sent to [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com). **If you want your event covered on the VKA website it is essential you select the pictures you want in the event summary and,** that photos be accompanied by appropriate captions or list of captions linked to photos. VKA reserves the right to restrict the publication in print or on-line if captions are not included. **Photos without captions, may be posted on the website, but not as part of the event summary.**

## 2. Safety/Insurance

Safety is the responsibility of the promoter and track owner/operator **or the karter**. VKA **Guidelines** and this Promoters' Package are intended to create consistency between events. VKA does not accept responsibility for conduct of the event. **Kart and helmet safety inspection may be performed by the track owner/operator or the karter using the checklist in Appendix F. Helmet cams are not allowed. See Guidelines Sec. 118 for proper use of cameras.**

**The Promoter should ensure that VKA is listed as “additional insured” in the track’s insurance policy.**

***Safety inspection of karts should be done prior to any kart practicing. Helmets must be SNELL APPROVED 2015 or later, SFI 24.1/2020 youth, 31.1/2020, or 41.1/2020! (These SFI certified helmets are valid until 12/31/31.) (Helmets with SNELL APPROVAL of 2010 or earlier are no longer acceptable and should not be allowed.) (Approved Snell helmets are valid until 12/20/26.) Per insurance requirements, helmet cams are not allowed. Any cameras used on a vintage kart must be securely attached to the frame of the kart.***

**Before starting karts:** Driver should be in the kart or the kart should be on a stand.

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

**New Drivers:** Defined as someone new to the sport or someone who has not driven in years. In the Drivers' Meeting, New Drivers should be told they start in the back of the grid in all Heats. An "X" should be displayed on the back of a New Driver's helmet.

**For Demonstration Heat starts:** have the flagman **START** the Heat close to the first turn. This keeps the speed down while the karts are tightly packed together. Some tracks have placed cones in the first turn to define and separate karts only for the first lap ... karts gridded on the left, stay to the left; karts gridded to the right, stay to the right. The cones are then removed.

**The Black Flag should be used** to take control of overly aggressive and reckless behaviors that cause wrecks **and for technical issues with a kart or driver's equipment after they are on the track.**

### 3. Demonstration Heats (Tier I)

Typically, most **Tier I** events run three Heats consisting of six to eight laps depending on track length, weather, and vote at Drivers' Meeting. Your first Heat line-up can be in the order of sign-in, "pea pick," age, or other system (*e.g.*, lap time). The second Heat is inverted from the first. In the third Heat, high point drivers go in front (see para. 132.6 in *Guidelines*). Regardless of finish, novice participants should start at the back of all Heats. Practice sessions should also be provided and will allow some vintage karts a Tier II-experience (see Paragraphs 3a & 4, below) if they prefer not to enter your Tier I Heats. If lap times are used for setting the grid, drivers should be allowed to "opt-out" of a position for one at the back of the grid.

#### 3a. Demonstration Heats (Tier II)

Tier II events are not meant to be formal, flagged Heats and are not scored and there are no awards. A Tier II event is for practice, testing, kart/motor shakedown and karter get together. If some karters wish to form their own class and have a friendly Heat, that would be at the promoter's discretion.

### 4. Practice

You should offer a "Practice Only" pass at your event for people who don't want to be in Demonstration Heats, **especially for Tier I events**. But be aware, when you are practicing karts, you should take precautions against karts of different speeds, tires, and handling being on the track at the same time causing an accident. The promoter should consider speed groups like: Single Rear, Dual Rear, Single Sidewinder, Dual Sidewinder and Junior/Historic.

### 5. Classes (Sprint and Enduro)

The VKA has instituted a class format guide for running vintage karts at events, **2022 VKA Class Guidelines** (see [Appendix H](#)). It is recommended that event promoters follow these classes when they prepare for an event. Vintage karters prepare their karts to conform to these class guidelines and want to show up at your event ready to run. Promoters should also consider allowing vintage enduro karts to participate in demonstration runs when there are enduro entrants. At the time an event is announced, and flyer is prepared, the promoter should identify it as either a Tier I or a Tier II event, and any deviations from VKA *Guidelines*. (A **Flyer Checklist** is included in **Appendix**

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

I.) Promoters should welcome inquiries from potential attendees if they have any question regarding their equipment **BEFORE THE EVENT**.

### 6. Other Activities

Events usually offer a dinner, picnic, or cookout (which is included in the driver's entry fees) on the second day of a three-day event, or the first day of a two-day event. Since karters like to mingle at these dinners, it's nice to introduce any famous, old karters attending your event. *Karting events could be structured as follows* (see **Appendix J**, for a **Recommended Schedules**):

**2 DAY EVENT – Day 1:** Registration, practice, 1<sup>st</sup> Heat<sup>1</sup> (local option), Kart Show, meal. **Day 2:** Registration, Practice, 1<sup>st</sup>, 2<sup>nd</sup> and/or 3<sup>rd</sup> Heat, after-Heat get together.

**3 DAY EVENT- Day 1-** Registration, Practice. **Day 2-** Registration, practice, 1<sup>st</sup> and/or 2<sup>nd</sup> Heat, Kart Show, meal. **Day 3-** 2<sup>nd</sup> and/or 3<sup>rd</sup> Heat.

The event flyer should address the classes, **Tier I or Tier II**, activities, accommodations, directions, costs of event and point-of-contact (see Event Checklist, **Appendix I**). The event flyer should be made available to the VKA website [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com) (see [Appendix B](#), below) as soon as possible.

*Remember, the main themes of any event are safety and fun.* The people attending your event this year may not remember who won in what class, but rather, how much they enjoyed themselves. Make your event special! Some suggestions include: encouraging all drivers to walk the track after the first Drivers' Meeting, hiring a singer to perform the "National Anthem" at the start of your event, providing an event announcer, recognizing famous karters, providing "special awards" (see **General**, above), planning an *hors d'oeuvre* dinner party, *etc.* Think outside the box. Do something that will make them remember your event – and want to return next year.

### 7. Kart Show – Categories

HISTORIC	REAR	SIDEWINDER	ENDURO	MINIBIKE	PEOPLES' CHOICE
<ul style="list-style-type: none"><li>• Unrestored</li><li>• Restored</li><li>• Modified</li><li>• Past Champion</li></ul>	<ul style="list-style-type: none"><li>• Unrestored</li><li>• Restored</li><li>• Modified</li><li>• Past Champion</li></ul>	<ul style="list-style-type: none"><li>• Unrestored</li><li>• Restored</li><li>• Modified</li><li>• Past Champion</li></ul>	<ul style="list-style-type: none"><li>• Best in Show</li></ul>	<ul style="list-style-type: none"><li>• Best in Show</li></ul>	<ul style="list-style-type: none"><li>• Best in Show</li></ul>

You will select three VKA Members as judges at your event who are best qualified to judge the Kart Show entries.

VKA certificates are available from the kart show contact (see [Appendix B](#), below) upon request for Kart Show awards.

#### 7.a Kart Show Organization- Only Current VKA Members may participate.

1. To streamline and simplify the Kart Show, sidewinders should go on one side of the track, and rear engine karts on the other side. That will get things started (see chart. below). Then, starting from the left, moving to the right, line them up with the rear "Historic" on

<sup>1</sup> Heat structure may be for Tier I or Tier II.

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

the far left, “Unrestored” next, “Restored” next, then “Modified.” “Past champion” should be placed at the end or in the infield to accent their success.

- Promoters may want to “pre-stage” temporary cones or signs to make placing participants’ kart easier. This effort will pay off in the time saved for the judges to evaluate the participants. This in turn will expedite the entire process and get the karters to the next part of the event ... dinner, practice, awards, *etc.*

- Collect all Kart Show Registration Forms and turn them in with the Show Results. For the Show Results, include the Registration Forms of the winners with the category of the winning kart clearly indicated.

### 8. Before and After Your Event

Early in the season, you will receive this Promoters' Package. It will also contain VKA Membership Application Forms and VKA *Guidelines*<sup>2</sup>.

**BEFORE** the event, as soon as your event date is confirmed, prepare and send a copy of your Event Flyer and Registration Form to your Regional Coordinator and [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com). (A single pdf version of multiple pages is preferable.) Examples can be found on [www.VKAkarting.com](http://www.VKAkarting.com). The flyer and Registration Form should include event schedule, special activities, classes, pricing, hotel information, at a minimum. (See **Appendix I** for checklist.)

**BEFORE** the event, consider contacting local radio and television stations to run FREE Public Service Announcements (PSAs). Also consider contacting local newspapers to run your event in their “Upcoming Community Events” section. Invite them to your event. Let them know how special vintage karting is ... the beginning of many current race drivers’ careers, the excitement of wheel-to-wheel exhibitions and ... the fun! [Consider acknowledging the **Second Annual International Go Kart Month (September)** celebration in 2022. ([www.facebook.com/group/1107821282970313/](https://www.facebook.com/group/1107821282970313/))]

**BEFORE** the event, be sure to line-up reliable, dependable, conscientious people to help. In addition to EMS, you should have support with administration, safety tech, grid management, flagging, scoring, announcing, and photography. (It will be necessary to arrange for someone to take pictures at the event and to write an event summary. When making arrangements with a professional photographer, you should make him/her aware photos of the event, including the Kart show, should be made available for the VKA website at no charge, or as part of his/her fee.) (Send to [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com).) You or the photographer should provide captions for all pictures

<sup>2</sup> VKA *Guidelines* may include recommendations regarding classes, safety tech procedures, flagman duties, *etc.*

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

intended for use in the Event Summary on the VKA website. Credit will be given to the photographer.

The Monday **BEFORE** your event, you will be e-mailed a current VKA membership list. This will be helpful in determining if event and show judges and entrants are VKA members. Returning vendors must be VKA members; if they are not, access to the pit area should be restricted.

**AFTER** the event, send the Event Report ([Appendix C](#)) and contribution money to your Regional Coordinator. Please make sure all checks are made payable to *Vintage Karting Association* (see [Appendix B](#)). The Event Report should include copies of scoring printouts to include number of karts in each class, lap times, average times, Heat time, *etc.* (See Appendix C & K).

**AFTER** the event, send completed Membership Applications to the Regional Coordinator, together with checks made payable to *Vintage Karting Association* (see [Appendix B](#), below).

**AFTER** the event, you should email (see [Appendix B](#), below) a written Event Report/Summary (**Appendices C and K**) and pictures of the event, including the Kart Show and the Peoples' Choice (see [Appendix B](#), below).

The photographer should be advised to send a link to photos to the [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com). Photos should be available from DropBox.com and the link accessible to VKA [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com) (see [Appendix B](#), below). All pictures intended for use in the Event Summary on the VKA website must have captions. Credit will be given to the photographer. Pictures without captions may be used elsewhere on the VKA website.

**AFTER** the event, the event results (at least 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> positions, **except Historic**, and Kart Show winner/entrant information should be provided to the Editor of the VKA **website** [Editor@VKAkarting.com](mailto:Editor@VKAkarting.com) (see [Appendix B](#), and **Appendix K**, below).

### 9. Guidelines

Go to [www.VKAkarting.com](http://www.VKAkarting.com). Click on "Members" area. Scroll down to "Download Links for VKA Documents." Click on "Event Guidelines." (see [APPENDIX H](#), below, for **Class Guidelines**)

### 10. Grid & Scoring

#### 10a. Tier I Events are flagged and scored.

- The event should consist of three Heats of equal value.
- Starting positions for Heat One may be determined by one of the following methods:
  - **In order of Registration**- Starting position will be assigned at registration – Earliest entry will start with the pole position,
  - **Pea-Pick System**- Karts will be grid in descending pea-pick number, or

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

Regardless of the starting position for Heat One, the grid for Heat Two will be completely inverted from Heat One, and Heat Three will be based on the combined score from Heats One and Two ... keeping in mind novices should always start at the back of the grid.

All novice and rookie drivers should have an 'X' on the back of the helmet and start at the back of the grid.

**NOTE:** Vintage karts are scored different than the Modern Karting-Heat & Feature-system. More and more promoters on the VKA circuit are going with the AMB Trans X 160 transponder for ease of scoring the Heats. Most tracks have this electronic system in use already. Until more karters own/lease a transponder, you will need to make transponders available. Entrants still need to put a number on their front panels. If there are no transponders used, then use the old-fashioned way with scorers "in the tower."

### 10b. Point System:

Starting in 2021, **VKA Guidelines** revised the scoring system. The new system is defined in Section 132.6. "Tie-Breakers" are also described in that section:

Points are issued by on track finishing positions

Lowest point total wins.

- 1 = zero
- 2 = 2
- 3 = 3
- 4 = 4
- 5 = 5
- and so on.

**DNF** points are issued based on the number of laps completed --

**Example:** in an 8-kart race (karts that take the Green Flag), the first kart out receives 8 points -- next out 7, and so-on.

**DNS** points issued based on number of karts entered in the race --

example: in an 8-kart race, if two karts do not take the green flag, both receive 8 points.

It is highly recommended that for VKA events using transponder scoring that it be linked into either *MyLaps* or *Race Monitor* so that those enthusiasts that could not attend may follow at home.

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

### Appendix E

## FLAGGING DUTIES

### I. START/FINISH FLAGGER

These items should be discussed at drivers meeting

1. Slow starts are safe starts –
2. Caution drivers on the grid to be aware of karts and crew ahead of them who have not started.
3. Discuss parade laps
  - a. It is the Pole Position's responsibility to maintain a slow speed to the **Start/Finish Line**.
  - b. Failure to do so will result in moving the Pole Position to the back.
  - c. The Start should be close to the first turn or cones could be placed to keep inside and outside rows separate for the first lap only. (See paragraph [2. Safety and Insurance](#), above.)
4. Explain the flags ... especially the track requirements for Red Flags.
5. Ask novices to start at the back **of each Heat** with "X" on back of the helmet.
6. When taking the Green Flag - No "Texas starts" or passing before the green flag drops.
7. 1<sup>st</sup> kart in the corner has the right of way.
8. No chopping or diving in the corners or blocking on the straights – no cutting into grass to pass. Driving Standards outlined in [Paragraph 96](#) of the **VKA Guidelines** should be discussed.
9. Insure drivers raise hand when exiting the track or stopping on the track. (Get your elbow up!)
10. If you observe a bumping, unsafe, or aggressive driving by someone when it could have been avoided, you should point a rolled-up Black Flag at them. If done twice, you should Black Flag the driver.

### II. TRACK ENTRY FLAGGER

1. Insure drivers entering the track, stop and waits until you direct them to enter the track.
2. Kart speeds vary between low-power and high-power karts. Low-power karts need a longer lead-time when high-power karts are on the track before you direct the slower karts from the grid onto the track.

### III. CORNER WORKERS

1. Monitor drivers for inappropriate actions
2. Display appropriate flag (Red, Yellow, or Black) when needed.

## Appendix F

### Pre-Tech Inspection Form

Kart #: \_\_\_\_\_ Frame: \_\_\_\_\_ Engine(s): \_\_\_\_\_  
Class(es): \_\_\_\_\_

Please indicate compliance by checking each item -- form to be submitted to officials to attain tech sticker -- no kart is allowed on the track without the tech sticker -- operation of a kart without the tech sticker may result in exclusion from the event. Your signature is also required, below.

SAFETY GEAR (meets VKA Guidelines)	
<input type="checkbox"/> SNELL approved helmet (2015 or later)	<input type="checkbox"/> Long Pants
<input type="checkbox"/> Shoes	<input type="checkbox"/> Gloves
<input type="checkbox"/> Jacket	<input type="checkbox"/> Neck Collar
BRAKE and THROTTLE SYSTEM	
<input type="checkbox"/> Brake/Throttle Pedal pivot to chassis*	<input type="checkbox"/> Activator Rod / clevis pins / Cable ends*
<input type="checkbox"/> Master cylinder to chassis bolts*	<input type="checkbox"/> Brake rotor to axle hub (cotter pin or lock nuts)*
<input type="checkbox"/> Caliper to chassis bolts*	<input type="checkbox"/> Throttle Return Safety Spring (recommended)
STEERING SYSTEM	
<input type="checkbox"/> Steering wheel to hub bolts*	<input type="checkbox"/> Kingpin bolts*
<input type="checkbox"/> Steering hub to shaft nut*	<input type="checkbox"/> Tie rod end bolts*
<input type="checkbox"/> Steering shaft to chassis (lower end)*	<input type="checkbox"/> No "over-steer"
REAR AXLE	FRONT AXLE
<input type="checkbox"/> Main wheel nut*	<input type="checkbox"/> Main wheel nut*
<input type="checkbox"/> Axle snap ring (movable hubs)	<input type="checkbox"/> Valve stem not "torqued" <sup>1</sup>
<input type="checkbox"/> Valve stem not "torqued" <sup>1</sup>	
TIRES	FUEL SYSTEM
<input type="checkbox"/> All tires meet VKA Guidelines	<input type="checkbox"/> Tank secure
<input type="checkbox"/> All tires in good condition	<input type="checkbox"/> No leaks
<input type="checkbox"/> No valve stems are "torqued" <sup>1</sup>	<input type="checkbox"/> Cap tight
	<input type="checkbox"/> Fuel lines safety wired, clamped or Ty-Rap
NUMBER PANEL(S)	CHAIN/CLUTCH
<input type="checkbox"/> Secure	<input type="checkbox"/> Chain guard
<input type="checkbox"/> 6" Number	<input type="checkbox"/> 3 <sup>rd</sup> Bearing support/clutch guard

**\*Items that need to be secured by cotter pin.**

<sup>1</sup> A "torqued" valve stem is a valve stem that is not aligned with valve stem hole in rim (i.e., twisted)

I certify that the information above is true, accurate and complete. I have personally checked each item and am satisfied that each item is in good condition, and my vintage kart is safe to operate. Any changes, repairs, or modifications made after this certification will be in compliance with VKA Guidelines.

**Membership:** All Members receive a membership card and access to on-line VKA magazines and newsletters. New Members also receive a patch. Additional patches are available for \$6.00 each plus \$1.00 postage by contacting Deo Curts at the address below.

Patch →

Card →

**Volunteering:** VKA is run by volunteers. Because the membership is comprised mostly of vintage karters, we not only have drivers and mechanics with a lifetime of experience at and on the track but are in the unique position of having access to a vast and varied "knowledgebase." Do not let it go to waste. VKA is always looking for volunteers at the track, but also to manage, organize and run the organization. Please take a moment and indicate below what life experiences or general interest you have and can contribute to VKA.

- ☐ Computers (Identify area: typing, website management, programming, spreadsheets, etc.) \_\_\_\_\_
- ☐ Finance/Accounting/Taxes ☐ Management/Supervision ☐ Other (describe) \_\_\_\_\_
- ☐ Writing/Editing ☐ Photography ☐ Drone Video \_\_\_\_\_

By signing this document, I certify the information is correct and I have read and agree to the terms in the Release Statement on p.16:

Applicant or Guardian's Signature \_\_\_\_\_ Date Signed \_\_\_\_\_

Send **CHECK** made payable to Vintage Karting Association and this application to:

Vintage Karting Association Membership Release Agreement

Rev1/04/2021  
Ma

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

### RELEASE STATEMENT

In consideration of, and in exchange for, being granted the benefits of membership in the Vintage Karting Association, Inc. ("VKA"), the undersigned, for myself and for anyone claiming on my behalf, including, but not limited to, my personal representatives, heirs, next of kin, successors, and assigns, do:

- a) Hereby agree to assume all responsibility and liability for all acts or activities of myself, my drivers, assistants and crew for any and all damage or injury that may be caused by any or all of us or by our kart(s) motor(s), properties or possessions in any way arising out of or resulting from the operation of my equipment and/or as a result of our participating in a VKA event or kart activities (hereinafter, "VKA activity" or "VKA activities").
- b) Hereby agree to follow and to be bound by all of the rules/guidelines of the association and agree that decisions of its officials and/or interpretation of its rules/guidelines will be governed exclusively by the administrative review and to be determined appeal procedures set forth in such rules/guidelines.
- c) Hereby release, waive, discharge and agree not to sue the VKA and/or any or all of its directors, officers, employees, agents, committee members, referee and inspectors, its individual members, and volunteer workers assisting in approved VKA activities (hereinafter, "Releasees") from any and all claims, actions, causes of action, demands, costs, liabilities, expenses and damages, including, but not limited to, claims relating to negligence or otherwise for all loss or damage for bodily injury, death or damage to property arising out of or resulting from a VKA activity.
- d) Hereby agree to indemnify and hold the Releasees from and against any and all claims, actions, causes of actions, demands, cost, liabilities, expenses, loss, or damage incurred due to the presence of the undersigned in or upon a restricted area or in any way operating a kart, officiating, observing or working for, or for any purpose participating in any VKA activity and whether caused by negligence or otherwise.
- e) Hereby assume full responsibility for and risk of bodily injury, death or property damage due to the negligence of Releasees or otherwise while in or upon the restricted area and/or while operating a kart, officiating, observing, or working for, or for any purpose participating in the VKA activity.
- f) Hereby expressly acknowledges and agrees that the VKA activities are dangerous and involve the risk of serious injury and/or death and/or property damage. The undersigned further expressly agrees that the foregoing Vintage Karting Association Membership Release Agreement is intended to be as broad and inclusive as is permitted by the law of the Province or State in which the activity is conducted and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect.

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

### Appendix H

#### 120 VKA Event Class Structure --

**1. HISTORIC** 1956 to 1964 rear engine karts and engines; single, dual, or triple engines, 16.5 c.i. (270cc) max displacement; Must have vintage-style dry clutches or direct drive; box muffler; vintage tires -- Promoter may split class as per VKA Guidelines -- duals/triples in front -- this is a Tier 2 demo class -- Max kart width – 46"

**2. JUNIOR** (ages 10-14) Rear or sidewinder with single 80 or 100cc (6.1 cu. in.) max. American Fan Cooled Engine -- engines will run single HL carb with 1" or smaller throttle bore -- Small single intake manifold only (WB V-reed, Homelite reed, Go Power reed, *etc.*) -- Manifold to have an HL bolt pattern, single reed cage only -- no Mac 91 or 93 manifolds. -- box muffler -- vintage dry style clutch (no Hartman slippers) ----- Yamaha KT100 engine may be used with WA55 Walbro carb and "limited" exhaust system -- (See Yamaha Limited Class for pipe and clutch requirements) -- Vintage tires required. Max Rear kart width – 46" ----- Max SW kart width – 50"

#### **3. SPORTSMAN REAR**

**Group A** American fan cooled engines -- 8.2 c.i. (135cc) max displacement industrial type WB-820 or West Bend 610 -- McCulloch's must be 6.1 c.i. (100cc) max displacement or saw blocks over 80cc -- Small single intake manifold required (WB or GEM V-reed, Homelite reed, Go Power reed, *etc.*) -- Manifold to have an HL bolt pattern -- single reed cage manifold only -- Single HL 1-inch maximum throttle bore carburetor -- Small Mac flat-back carb OK -- West Bend 820 must use 0.813" max venturi / 1" throttle bore carb (or HL232 standard carb) -- vintage style dry clutch -- no slipper arms on Hartman clutches -- box muffler -- vintage tires -- MC-91, 92 and 93 engines are allowed --single carb manifolds only -- No V-4, V-6 or V-12 manifolds -- after market stuffer plates OK -- no 91-93 carbs -- no 91-93 McCulloch manifolds -- Max kart width – 46"

**Group B** Stock 100cc Mac -- Single pumper BDC carb -- stock V4 factory manifold -- Stock flywheel -- stock stuffer -- gasoline fuel -- box muffler -- dry clutch (no Hartman slippers) -- #35 chain -- intake manifold may be removed for visual tech and No-Go port inspections (.450" dia) -- exhaust header may be removed for visual and No-Go size inspection (.578" height / .087" rib / 1.730" width) -- aftermarket connecting rods approved -- vintage tires -- max kart width 46"

#### **4. 80cc MAC** Both groups:

80cc Mac 49 or comparable chain saw block – 1.375" maximum stroke -- rear, straight axle sidewinder or pre-1981 SW chassis – 1" axle – Vintage tires per 125.1 – max width 46" – single intake manifolds only -- (WB V-reed, Homelite reed, Go Power reed, *etc.*) or factory Mc 49 series intake -- manifold to have an HL bolt pattern -- Single HL carb with maximum one inch throttle bore or small Mac flat-back carburetor -- gas or alcohol fuel

**Group A** any engine modifications allowed -- vintage style dry clutch – any box muffler

**Group B** Engine to have no modifications – must be run stock -- stock intake and exhaust ports – no additional boost ports – absolutely no internal modifications – heads are not allowed any alteration / filling to increase compression -- No 49M/C blocks allowed -- GEM #1273 box muffler – Max Torque dry clutch with no modifications and orange springs – minimum driver age 45 years old – entrant must accept intake / exhaust removal for engine inspection upon request Class may be run on track -- with Class #1 / Historic at race director's discretion

**5. 6.1 REAR** Rear engine karts; American fan cooled engines only, 6.1 c.i. (100cc) max displacement --pipes and oil clutches allowed -- no disc clutches -- any carburetor combinations -- vintage tires -- Max kart width 46"

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

**6. 8.2 REAR** Rear engine karts; American engines only, 8.2 c.i. (135cc) max displacement -- pipes and oil clutches allowed -- no disc clutches -- any carburetor combinations -- vintage tires -- Max kart width -- 46"

**7. DUAL REAR** American fan cooled engines only -- (B+C) up to 16.5cu (270cc) -- box mufflers -- #35 chain -- vintage tires -- oil or dry clutches -- no disc clutches - Max kart width -- 46"

### **8. 100cc SIDEWINDER**

**Group A** 1979 and older sidewinder chassis and engines -- with Foreign (100cc) engines per section 126 -- 100cc American fan cooled engines, 125cc American fan cooled engines -- engine clutches only -- Max Torque, Rev Grip, L&T, Horstman DXL, Horstman Steel Nytro, Burco, Hartman, and Noram (no Tomar clutches) -- no modern clutches -- no axle clutches -- pipes allowed -- modern tires allowed -- 56 durometer minimum -- kart and engine must be manufactured prior to 1979 -- 1" axles -- max kart width of 50".

**Group B** 1987 and older sidewinder chassis and engines -- with Foreign (100cc) engines per section 126 and 126.1 -- 100cc American fan cooled engines, 125cc American fan cooled engines -- engine clutches only -- Max Torque, Rev Grip, L&T, Horstman DXL, Horstman Steel Nytro, Burco, Hartman, and Noram (no Tomar clutches) -- no modern clutches -- no axle clutches -- pipes allowed -- modern tires allowed -- 56 durometer minimum -- kart and engine must be manufactured prior to 1987 -- 1" and 1.25" axles -- max kart width of 50" Group A and B run together -- they may be separated at the discretion of the promoter if participation warrants.

**9. 150cc SIDEWINDER** 1987 and older sidewinder chassis with Foreign or American engines -- 9.15 c.i. (150cc) max. displacement produced before 1987 -- engine clutches only -- pipes allowed -- modern tires allowed -- 1" or 1.25" axles -- No axle clutches -- Max kart width of 50 inches

**10. OVER 60 / MASTERS** Drivers 60yrs+ -- Rear karts max. width of 46" or pre-1980 sidewinder karts max width of 50" -- American fan-cooled 6.1 c.i. (100cc) max displacement engines -- pipes allowed -- oil or dry clutches allowed -- no disc clutches -- vintage tires -- any carburetor combinations -- promoters should consider separating the sidewinder and rear engine karts when participation is sufficient to do so and allow sidewinders to start in the front -- this class should not be combined with over 60 Yamaha Limited (class 16) as some drivers may run both.

**11. DUAL SIDEWINDER** SW with Foreign or American engines - 18.3 c.i. (300cc) max displacement -- engine clutches only (L&T wet disc, Horstman DXL, Horstman Steel Nytro, Burco, Hartman, and Noram) -- pipes allowed -- modern tires allowed with minimum compound durometer of 48 -- may use any approved single SW tire (see 125.4 below) -- 1 1/4" axle allowed if original; engines must be manufactured prior to 1980 and karts must be manufactured prior to 1983 -- No K-30, K35, TKM 135, TKM 150, or PCR 135 engines allowed in this class -- No axle clutches -- Max kart width 50"

**12. SPORTSMAN SIDEWINDER** Sidewinder (pre-1980) with 6.1 c.i. (100cc) max displacement -- American fan cooled engine -- single carburetor (Mikuni, Tillotson, or McCulloch BDC-single or double pumper) -- any size throttle bore -- Factory intake with Mac V4 reed assy -- modern tires -- 1" axle only -- box muffler -- vintage-style dry clutch -- no slipper arms on Hartman clutches -- after market stuffer plates allowed -- #35 Chain Only -- max kart width of 50"

**13. YAMAHA PISTON PORT** 1987 and older sidewinder chassis with single 100cc (KT100S, 1977 to present) -- piston port only -- max. bore 2.100" -- max. stroke 1.816" -- "stock appearing" -- internal modifications allowed (section 135) -- factory ignition system only (exception: "RLV" TCI replacement module OK) -- Walbro WB3A carburetor only -- no carb triggers -- any pipe allowed -- Horstman DXL, Steel Nytro, Hartman, L&T, Burco wet clutches allowed -- Max-Torque clutches allowed -- no modern clutches -- no direct drive or Tomar clutches -- no axle clutches -- 1" or 1 1/4" axle; modern tires -- gas+oil only -- 219-chain allowed -- Max kart width 50"

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

**14. YAMAHA LIMITED** 1987 and older sidewinder chassis with single KT100s, piston-port engine, max bore 2.100" – max stroke 1.816" – all WKA stock specification guidelines to apply (section 136) -- factory ignition systems only (exception-RLV TCI replacement module allowed) -- Walbro WB3A carb with max 0.950" venturi -- No carb triggers -- "Limited" pipe (VKA Sr Y -- / K1 / K2) at 12" minimum length (piston to start of first cone); no tapered headers -- Horstman DXL and Steel Nytro, Hartman, L&T, Burco wet clutches -- Max-Torque clutches allowed -- no modern clutches -- no Tomar clutches -- no direct drive -- no axle clutches -- 1" or 1.25" axles -- 219-chain allowed -- gas + oil only Modern tires -- Max kart width of 50"

**15. STRAIGHT AXLE SIDEWINDER** Straight Axle Sidewinder/non-wishbone front axle frames -- 6.1c.i. (100cc) American fan cooled engine -- single carburetor (Mikuni, Tillotson, or McCulloch BDC single or double pumper) -- any size throttle bore -- Factory Mac V4 intake -- box muffler -- vintage-style dry clutch -- Hartman "slipper arms" not allowed --after market stuffer plates allowed -- #35 Chain Only --Vintage tires -- 1" axle only -- max kart width 50"

**16. YAMAHA MASTERS** Drivers over 60 years old -- 1987 and older sidewinder chassis with single KT100S piston-port engine -- max bore 2.100" – max stroke 1.816" – WKA stock engine specification guidelines to apply (section 136) -- factory ignition systems only (exception RLV TCI replacement module allowed) -- Walbro WB3A carb with max 0.950" venturi -- "limited" RLV pipe (VKA Sr-Y / K1 / K2) at 12" minimum length (piston to start of first cone) -- no tapered headers -- Horstman DXL, Steel Nytro, Hartman, L&T, Burco oil clutches, Max Torque -- no modern clutches -- no direct drive or Tomar clutches -- no axle clutches -- no carb triggers -- 219 chain allowed -- Max kart width 50" -- gas + oil only Vintage Speed Tires (11/350/5 -- 11/450/5 -- 11/600/5) --or-- Hoosier R80 (4.5/10/5 -- 6.0/11/5 -- 7.1/11/5) only This class should NOT be combined with over-60 (Class #10) as some drivers may run both.

**17. DUAL YAMAHA** 1987 and older sidewinder chassis with two Yamaha KT100S engines, 1977 to present -- max. bore 2.100" -- max. stroke 1.86" -- Factory ignition system only (exception -- "RLV" TCI replacement module OK) -- Walbro WB3A carburetor only -- No carb triggers -- vintage engine clutches only -- Horstman DXL, Steel Nytro, Hartman, L&T, Burco wet clutches only -- no Tomar clutches -- no direct drive -- no axle clutches --gasoline only -- 219-chain allowed -- modern tires -- 1¼" axle allowed if original. -- Max kart width 50 inches -- gas + oil only

**Group A** Stock Appearing engines; internal modifications allowed (section 135) -- any pipe

**Group B** Yamaha Limited engines -- WKA stock engine specification guidelines to apply (section 136) -- "Limited" RLV pipe (VKA Sr Y / K1 / K2) at 12" minimum length (piston to start of first cone) -- no tapered headers. Group A and B run together -- may be separated at the discretion of the promoter

**18. WEST BEND SIDEWINDER** Stock appearing West Bend 820 with stock bore and stroke (fan cooled) -- box muffler -- single West Bend factory manifold and V4 reed cage with HL carb -- Max venturi 0.813" -- 1" max throttle bore -- 0.810" restrictor plate under carb is acceptable if carb is larger -- modern style tires -- pre-1980 sidewinder karts with 1" axle -- OEM Horstman -- Hartman (no slipper arms) and Max-Torque Dry Clutches only with no add-ons -- #35 Chain Only -- Max kartwidth 50" May be run behind Class #12 but scored separately

## 121 CLASSIC DIVISION

**1988 --1992** -- max kart width 50" -- older chassis also allowed -- modern tires -- #35 or 219 chain allowed

**19. CLASSIC 100cc** Foreign or American engines, 6.1 c.i. (100cc) max displacement -- Stock Appearing (any internal modifications allowed) -- #35 or 219 chain allowed -- 1" or 1.25" axle -- maximum kart width 50"

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

**Group A** 100cc Piston Port Engines -- Yamaha KT100S -- Dap T50 -- TKM BT82 -- PCR100 -- Komet K71 -- Parilla PV92 -- HPV / KPV -- Walbro WB3A carb with max 0.950" venturi -- 1" throttle bore -- No carb triggers - "Limited" pipe (VKA Sr Y / K1 / K2) at 12" minimum length (piston to start of first cone) -- no tapered headers -- Horstman DXL and Steel Nytro, Hartman, L&T, Burco, Tomar wet clutches -- HPV dry disc clutch -- KPV dry clutch -- Max-Torque clutches allowed -- no direct drive -- no axle clutches axles

**Group B** 100cc Piston Port, Reed and Rotary engines -- any fixed pipe -- Horstman DXL and Steel Nytro, Hartman, L&T, Burco, Tomar wet clutches -- Max-Torque clutches allowed -- axle clutches allowed

**20. CLASSIC 150cc** Sidewinder with Foreign or American engines -- 150cc max -- can be run with Class #9 but scored separately -- axle clutches allowed

### **21. CLASSIC UNLIMITED**

Sidewinder with Foreign or American engines, 18.3 c.i.(300cc) max displacement; Tire durometer minimum of 48 allowed -- K99, K299, K29; K-30; K35; TKM 135; TKM 150; PCR 135; DAP T60; DAP T62 engines allowed in this class. Can be run with Class #11, but scored separately

**22. VKA FOUR STROKE** -- drivers age 16 and up -- Gasoline or Methanol fuel only -- no additives

**Group A Stock division** -- Briggs+Stratton 5hp Raptor style Flathead engine -- WKA rules apply

**Group B Modified Division** -- WKA Limited Modified rules apply Group A and B run together -- may be separated at the discretion of the promoter if participation warrants.

## 2022 Promoters' Package

[CHANGES highlighted in yellow.]

### Appendix I

#### FLYER AND ENTRY FORM CHECKLISTS

✓	ITEM	DESCRIPTION
FLYER		
	Track Logo	Logo and website
	Dates	
	Location	Track Name and address (suitable for GPS)
	Schedule	Two- or three-day event/List times for Track Open/Meal/Track Close/Practice Times/Dinner/Kart Show/Drivers' Meeting/Heat 1, Heat 2 and Heat 3. (See Appendix J, p 22) Consider a comment that says "Schedule is tentative – weather may have an impact."
	Tier I or II	If both, list which classes will run in each.
	Fees	Pit Pass for Drivers/Pit Crew; 1, 2, or 3-day cost/Is Meal included.
	Classes	Use <b>VKA Guidelines</b> for <u>correct class names</u> . Consider a comment that puts participants on notice they may be turned away if not in compliance and allows participant to contact you <b>before</b> the event if they have any questions.
	Contact	Give name, email and phone number of <b>event</b> contact.
	Hotels	Give name/address/phone. Have you worked a special deal for event?
	<b>Notices</b>	<b>Include a statement that alerts participants that VKA Membership is required to participate in demonstrations and shows, kart s that do not meet VKA Guidelines will not be allowed, if a participant is concerned about their equipment, they should contact your for prior approval to run, and any other notices.</b>
ENTRY FORM		
	Classes	Use VKA Class <b>Guidelines</b> for <b>names and numbers</b> .
	Fees	Specify fees for drivers, pit crew, meals and what is included in each
	Refund Policy	If your policy is NO REFUNDS, say so. Otherwise, stipulate conditions; from "no refund" to "for any reason if in writing within one week of event." What you say will affect pre-registration.
